

Dear League of Essex County Sportsmen Club,

Thank you for the scholarship! I have just finished my freshman year at Westfield State University as an environmental science major. I have learned so many new things this year that have opened me up to the world. The campus is right on the edge of the Berkshires making it a perfect location to learn about my environment through hikes and adventures. I can't wait to see where my degree takes me.

Sincerely,
Gillian Pinciario
